

Overseas
SHIPPING INC

The World of Shipping from One Point

We offer the world of shipping from one point. Friendly, systematic and technology driven, Overseas Shipping's team of talented logistics personnel, help you ship cargo of any size – light to heavy, small to large, all safe and sound.

Services offered

Sea Freight – Predictable bulk shipments at affordable rates

There couldn't be a more complex operation as it is with managing sea freight – advance planning, ground handling, paper work, storage and loading at diverse ports and logistics support etc. At Overseas Shipping, it is simplified right from the time the goods enter the warehouse until it lands safely at your destination point.

Air Freight – Quick connectivity and safer on-time shipments

Air Freight services gives you time and peace advantage. We handle all attendant documentation – import/export/ custom clearances, with care and efficiency to reach your shipments on-time. An experienced team conversant with air freight operational dynamics, help move goods (Perishables/Industrial /Hazardous), swiftly to respective destinations. We count leading supply chain and logistics companies as our partners.

Inland Freight Logistics – Efficient goods transportation to the destination

Inland Freight services take over from the nearest sea port or airport to move goods to its ultimate destination. Our hub and spoke approach negate delays, all shipments are swiftly lifted or offloaded onto waiting trucks to be transported long or short distance to customers. Speed and reliability are at the core of our inland transportation services.

Auto Shipping/RORO – Come RORO (Motorbikes, Cars & Heavy Vehicles) and drive off

We are specialists in Auto Shipping of Motorbikes, Cars and Heavy Vehicles. We follow systematic processes (provide before/after photographs of consignments) to ensure efficient loading/unloading and help reduce time and risk of damage or pilferage. Even shipment through containers are pre-packed in seaworthy materials and reinforced with strong fasteners to ensure safe delivery at destination port.

Warehousing & Receiving – Store and quicken goods movement

Our spacious technology-driven warehouse has facilities to securely receive, store, track and retrieve goods and effectively time shipments. We use industry-leading software tools and technology (GPS, RFID and Mobile Apps) to update goods movement, send alerts for pickups, share real time shipping rates and locate materials in the warehouse.

Packing & Pickup – Professional on-site packing and goods movement

Overseas Shipping's team is skilled to pack all types of goods (sensitive, perishable and heavy equipment) with appropriate materials and fastenings, for safe reliable shipments. We specialize in onsite fabrication and packing in wooden crates meeting load, climate and impact specifications; delivered to the doorsteps.

Project Management – Minimize risk and time to deliver satisfaction

Projects could be on-going or one-time, with risk and time sensitivities. Overseas Shipping has a multi-faceted logistics team equipped for any type of shipment – air, sea and land; banking on efficiency and working within timelines. Whatever the size and complexity, you can count on our extensive experience, to guarantee satisfaction and assets to arrive in mint condition.

"Excellent customer service. Very competitive pricing. I will definitely use them again."

Latif International

"Overseas Shipping handled the shipment of my car professionally from the show room in USA to Tema. They cleared all custom papers too."

David - Tema Ghana
